DISPOSABLE GLOVES

Progenics™ Glove Dispenser System

Now Available In Blue

**92.5% less bacterial contamination  
than traditionally dispensed gloves**

The new Bastion Progenics™ glove dispenser system is the latest development in the disposable gloves market. The Bastion Progenics™ system revolutionises the approach to the dispensing of disposable gloves and incorporates the new allergy free Proflex™ glove, available in Blue and White.

# Progenics™ Glove Dispenser System

Recent studies show gloves dispensed from Bastion Progenics™ System have **92.5% less bacterial contamination** than traditionally dispensed gloves.

## Progenics™ System

- Gloves are dispensed cuff first – reducing the risk of contamination by not touching the finger and palm areas of the glove.
- Fast and easy to use.
- Cost effective due to reduced waste as gloves are dispensed individually.
- Unused gloves cannot be reinserted into the box further reducing cross contamination.
- The acrylic wall mounted dispenser bracket keeps gloves away from contaminated surfaces and boxes are easily removed and replaced.
- Brackets are supplied in kits with screw fixings, double sided tape and mounting instructions.

## Progenics™ Dispenser Bracket

- Acrylic wall mounted dispenser bracket keeps gloves away from contaminated surfaces.
- Boxes are easily removed and replaced.
- Brackets are supplied in kits with screw fixings, double sided tape and mounting instructions.

1000/113

## Proflex™ Glove

- Unique blend of Nitrile and Vinyl.
- Latex free.
- Allergy free.
- Superior fit and strength.
- Softer, more flexible and greater sensitivity than Nitrile or Vinyl.
- Performance similar to Latex.
- Micro textured for excellent wet or dry grip.
- Cheaper than Latex and Nitrile.
